

Good News for Maine Kids

Children of Drs. Peter and Karen Emery of Greater Portland, Maine

All Maine Kids Get Free Vaccines Starting January 1!

Thanks to the new Maine Universal Childhood Immunization Program, all recommended vaccines are now free for Maine kids, up to age 18.

- The vaccine is free, but you might have to pay a small fee to cover the cost of giving the shot.
- Check with your insurance company to learn more.

Vaccines help keep children and teens healthy and safe from dangerous diseases. Protect your children and teens by making sure they have all recommended vaccinations.

For more information, talk to your child's doctor or nurse or call **1-800-867-4775** to reach the Maine Immunization Program.
